## PREFACE.

---

THIS Index to the Laws of Ontario contains, not only every Chapter, Public and Private, whether repealed or still in force; but every subject upon which the Legislature has passed, continuing the same with its amendments, in an unbroken succession of references from the earliest enactment down to the present day. The propriety of indexing Statutes which have been superseded or repealed has sometimes been questioned; but inasmuch as such Statutes have at least an historic value, and besides are at all times liable to be sought for and consulted in their relation to subjects still affected by them; I am, as I always have been, most thoroughly convinced that to make an index complete, it should include, not only the present, but the past, as this work has done.

The Index, so far as it relates to general subjects, is arranged in strict alphabetical order, while under the several headings each subject is followed chronologically, giving in every case the Volume (or year), the Chapter, the Section and (when necessary) the Sub-section or Page.

This is the first attempt of the kind that has been made to cover this wide field of legislation, and I trust the work will give satisfaction and prove to be of utility and convenience to the Legal Profession and to the Public generally.

H. H. BLIGH.
